## NON-FOAMING #400 DRY ALGAEICIDE

CONTROLS AND PREVENTS  
ALGAE GROWTH AND WILL  
MAINTAINS CLEAR WATER  
IN SWIMMING POOLS.

4 ounces treats 10,000 gallons

- EPA registered
- Contains no Ammonia
- Safe for all pool surfaces
- Restores water sparkle
- Removes algae
- No odor
- Dissolves rapidly
- Prevents algae growth
- Non-foaming
- Non-staining
- No heavy metals
- For use in all pool types
- Bromine Algicide
- Bromine technology
- 98% active
- Reactivate by simply shocking pool

KEEP OUT OF REACH OF CHILDREN

### WARNING

Prolonged eyes and skin contact  
may cause severe irritation

## #400 DRY ALGAEICIDE

**WARNING:** Harmful if swallowed, inhaled or absorbed through the skin. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Do not get into eyes. Do not swallow. Avoid contamination of food.

### FIRST AID

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. If swallowed: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

**PHYSICAL OR CHEMICAL HAZARDS**  
Avoid contact with oxidizing agents other than as described in the directions for use. Do not directly mix this product with any other chlorinated product or other oxidizing agent.

*It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. All dosages are for 10,000 gallons of water. Adjust accordingly. Prior to using product, assure water is properly balanced (pH between 7.6 and 7.8; total alkalinity between 120 and 140 ppm)*

EPA REG. NO. 3377-53-36556

## DIRECTIONS FOR USE

### BREAKOUT TREATMENT

To remove visible algae accumulations:

1. Brush areas with algae accumulations.
2. Add 4 oz. of Non-Foaming #400 DRY ALGAEICIDE per 10,000 gallons close to the affected areas. For severe accumulations, add 8 oz per 10,000 gallons.
3. To activate, add one of the following: 1 pound dry chlorinating compound (calcium hypochlorite or dichloroisocyanurate), 2 pounds lithium hypochlorite (35%), 1 gallon sodium hypochlorite (liquid chlorinating compound) 10-12%, 2 gallons sodium hypochlorite (liquid chlorinating compound) 5.25%, or 1 pound potassium monopersulfate (Shock) for activation per 10,000 gallons of water per week.

Use a suitable test kit to test for residual chlorine. Ensure that the chlorine residual is 3 ppm or lower before reentering the pool.

### MAINTENANCE TREATMENT

To prevent visible algae accumulations:

- Separately add 4 oz. of Non-Foaming #400 DRY ALGAEICIDE and one of the following: 1 pound dry chlorinating compound (calcium hypochlorite or dichloroisocyanurate), 2 pounds lithium hypochlorite (35%), 1 gallon sodium hypochlorite (liquid chlorinating compound) 10-12%, 2 gallons sodium hypochlorite (liquid chlorinating compound) 5.25%, or 1 pound potassium monopersulfate (Shock) for activation per 10,000 gallons of water per week.

Use a suitable test kit to test for residual chlorine. Ensure that the chlorine residual is 3 ppm or lower before reentering the pool.
