

KNOCK OUT WATER TREATMENT

Knock Out Water Treatment maintains clear water in swimming pools. Non-Foaming. Non-Staining. No odor. Safe for all pool surfaces. Dissolves rapidly. Will restore sparkling water. Contains no ammonia.

Product should be used with Chlorine, Non-Chlorine, Bromine Sanitizers or Bromine Disinfectants.

Compatible with Ionizers, Electrolysis & Mineral Feeders.

Knock Out Water Treatment is ideal for all pool surfaces including vinyl lined pools.

WARRANTY: Seller makes no warranty expressed or implied concerning the use of the product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to the label instructions.

CONTENTS: 1 LB (16 OZ.) (454g)

KNOCK OUT WATER TREATMENT

Dosages are for 10,000 gallons of water. Adjust accordingly. For best results prior to using, adjust pH between 7.6 and 7.8, and total Alkalinity between 120 and 140 ppm.

DIRECTIONS: 1. Brush any visible algae. 2. To clear and maintain clear water: Add 4 to 8 oz Knock Out Water Treatment and one of the following: 1 lb. of dry chlorinating compound (calcium hypochlorite or dichloroisocyanurate), 2 lbs. of lithium hypochlorite (35%), 1 gallon of sodium hypochlorite (liquid chlorinating compound) 10-12%, 2 gallons of sodium hypochlorite (liquid chlorinating compound) 5.2%, or 1 lb. of potassium monopersulfate per 10,000 gallons per week.
